

St. Mary's Hospital

A Choice You Can Believe In.

Treating Your Pain

Whether new or chronic, pain can affect all areas of your life—your work, emotional well being, attitude, and mental health—making it difficult to function normally at home or on the job. Pain can also influence your sleep, concentration, and personal interactions, often with those you care about most.

Pain Medicine Center of Central Illinois

State-of-the-art techniques. Fellowship trained physicians who are board certified in pain management. Skill, expertise and quality care to help reduce—or even eliminate—your pain. At the Pain Medicine Center of Central Illinois, St. Mary's Hospital and Central Illinois Associates, Ltd. are pleased to offer Decatur area patients the most advanced pain management options available today. The Pain Medicine Center, conveniently located on the second floor of St. Mary's Hospital, is dedicated to providing quality care and superior customer service.
